Manufacture A.Manzoni & Fils SA

A MATTER OF TIME SINCE 1888®

CANOPUS WEEKPLANNER

DESIGNED BY ILKKA SUPPANEN, A.MANZONI & FILS IS PROUD TO PRESENT ITS CANOPUS WEEKPLANNER LIMITED EDITION COLLECTION WITH AN AUTOMATIC MECHANICAL MOVEMENT - THE FIRST TIMEPIECE COLLECTION SINCE THE REVIVAL OF THE BRAND IN 2013. COMBINING THEIR CORE TAGLINES "A MOVEMENT OF CULTURE" AND "CONTEMPORARY CRAFTSMANSHIP" THIS DISTINCTIVE AND AUTHENTIC NEW COLLECTION CAPTIVATES BY ITS CONTEMPORARY DESIGN, HIGH QUALITY SWISS WATCH MANUFACTURING, PREMIUM MATERIALS AND SPECIFIC CULTURAL ELEMENTS.

This watch is conceived for those who plan their year in weeks! In addition to the indication of the week, the functions of the Canopus Weekplanner show you the phase of the moon as well as the date and weekday. A patented fine regulation mechanism and rapid strap exchange allow you to change between the metal bracelet and the leather strap within seconds.

The exclusively developed movement Dubois Dépraz module features: sweep week indication from the centre, date, weekday and a unique rotating moon hand covering and uncovering the moon on the subdials. The functions of the subdials are regulated by the 4 correctors at the side of the case.

All 3 versions of the Canopus Weekplanner have the A.Manzoni & Fils typical Côte de Copacabana movement- and dial-finish, which is referring to the famous Brazilian landscape architect Burlé Marx.

The 44mm case is available in stainless steel and each watch is delivered with a metal bracelet and alligator leather strap with contrasting handstitching by craftsman Camille Fournet. All watches are numbered and come in an unique handmade mahogany wooden box from craftsman Pierluigi Ghianda.
